

# M3SECURITYSYSTEMS

CLIENT:	Lisa Edwards Hairdressing & Skincare
ISSUES:	Staff safety & security Lone working Footfall
SOLUTION:	High Resolution CCTV with discreet cameras. Remote viewing via iPad, iPhone and PC

Lisa Edwards required a solution for their chain of salons that span the South, including Southampton, Fareham, Southsea, Reading, Petersfield, Eastleigh and Chichester.

Lisa required a CCTV solution which would be easy to operate and view remotely. Capability to view multiple sites via an iPad and iPhone with minimal fuss was essential.

M3 achieved this through use of Ladon digital video recorders. Their app gives connectivity to any camera on any site with two clicks! Full system management including playback and downloading of images can also be done remotely.

M3 were also enlisted to provide Intruder Alarm Systems, Intercoms and Fire Alarms at the Lisa Edwards chain, as well as ongoing servicing and maintenance.

This “one-stop shop” approach was a key factor for Lisa Edwards when selecting a security partner.
