

M3SECURITYSYSTEMS

CLIENTS: Various Scaffolding Firms & Various Main Contractors

ISSUES: Insurance protection continuity
Protection of premises, property, plant & materials throughout construction until occupancy.

SOLUTION: Temporary scaffold alarms
CCTV systems
Wireless system
Remote monitoring
Security Guard response

Construction works, vacant building and the presence of scaffolding make properties – their fabric, contents, construction materials and onsite plant - especially vulnerable. Temporary site security during works is crucial.

M3 are the first choice security partner for several scaffolding firms and main contractors. From small tower scaffolds to large building sites with multiple cameras, integrated alarms with remote monitoring and CCTV viewing with emergency security guard response and dog handlers.
